

International journal of translational research in Indian medicine
(IJTRIM)
Authors Instruction and Guideline for Manuscript Preparation

Cover Letter	It is highly essential that each manuscript should accompany with covering letter in a proper format which contains details such as manuscript title, list of author's with affiliations and declaration stating that this manuscript fully or partly has not been submitted to any other journal earlier for the purpose of publication by any of the authors. Further it is not under consideration for publication in another journal at the time of submission to our journal.
Title Sheet	Title sheet should be the first page of the Manuscript which comprises of the following <ul style="list-style-type: none">• Title of the Manuscript,• Author's Name (1,2,3..), Affiliation with complete institutional address with pin code.• Corresponding Author: Clearly indicate the corresponding author name, Affiliation, Institution, Email id, Contact details• Type of the Manuscript: Research Article/ Review/ Case study/Short communication.
Title of the Manuscript	It should be brief and clearly signifies the nature of work.
Abstract	Abstract should be limited to 250 to 300 words. It may be categorized in to the following heads <ul style="list-style-type: none">• Study Background• Aim and objective• Methodology• Results• Conclusion
Keywords	Minimum 4 and Maximum up to 6 keywords pertains to core research work shall be included in this section
Introduction	Introduction of the manuscript should clearly emphasize the following <ul style="list-style-type: none">• Back ground of the research work• Rationale of the study• Demography• Importance and Novelty of the present research work• Each component of the literature should be substantiated with relevant recent literature• Aim and objective of the study
Font Type	1.5 line spacing with "Times New Roman" font pattern.
Ethical Matters	Authors are well aware that prior approval is mandatory for utilization of animal and humans for the research purpose. Research involving animal experimentation should mention the institutional animal ethics committee approval number in their manuscript Authors submitting clinical case studies for publication should mention the study approval reference number from IRB/IEC/HEC or other relevant authorities.
Materials and Methods	This section should highlight the methodology adopted for the study in details with necessary reference. Authors are advised to project clear methodology which would benefit the researcher on similar field. Authors are allowed to divide this section under suitable headings as per the need of their manuscript.

- Details regarding usage of chemicals, solvents, reagent and kits
- Analytical procedures with proper reference
- Collection and authentication ref no
- Methodology on drug formulation
- Estimation procedures with suitable references
- Animal usage /species selection/ Cell line type/ Microbial stain etc
- Ethical approval number
- Detail regarding disease induction and treatment schedule
- Statistical analysis

SI Units	Authors are requested to follow International System of Units where ever applicable in the manuscript
Result	Result analysis of the study may be represented with suitable tables, images and graphs
Table and Figures	<ul style="list-style-type: none"> • Tables and figures must be properly aligned and should be placed appropriately. • No need of sending the tables and figures as a separate attachment instead it must be appropriately placed in the manuscript. • Table should be numbered uniformly. Each table should have brief title and with proper foot notes • Each figure should be numbered appropriately and illustrated with proper Legends /heading. • Please use images with high clarity and avoid usage of images with copyright protection.
Reference Style	<p>References should be listed at the end the manuscript after the conflict of interest section.</p> <ul style="list-style-type: none"> • Reference should be listed in number as it appears in the manuscript • Reference should be indicated in the following format <ul style="list-style-type: none"> • For single reference [1] • For more than one [2-3]
Ethical Matters	<p>Authors are well aware that prior approval is mandatory for utilization of animal and humans for the research purpose.</p> <p>Research involving animal experimentation should mention the institutional animal ethics committee approval number in their manuscript</p> <p>Authors submitting clinical case studies for publication should mention the study approval reference number from IRB/IEC/HEC or other relevant authorities.</p>
Journal Reference	<p>Cos P, Ying L, Calomme M, Hu JP, Cimanga K, Poel BV, et al. Structure-activity relationship and classification of flavonoids as inhibitors of xanthine oxidase and superoxide scavengers. <i>J Nat Prod.</i> 1998;61:71–76.</p> <p>Jack CR, Jr, Knopman DS, Jagust WJ, Shaw LM, Aisen PS, Weiner MW, Petersen RC, Trojanowski JQ. Book Reference	<p>Goodman, L., Gilman, A., Brunton, L., Lazo, J. and Parker, K. <i>The Pharmacological basis of therapeutics.</i> New York: McGraw-Hill.2006</p>
Discussion	Discussion part should be more elaborate on comparing the present research finding with the existing with proper supporting references
Conclusion	This part of the manuscript should be very brief on highlighting the current research finding with significance of future scope of the study
Acknowledgement	Authors shall acknowledge the individuals, academicians, scientist, institutions

who made significant contribution to the work who cannot necessarily be included in the list of authors.

Authors are request to disclose the details of funding agencies with proper reference (Project approval/ Allotment) number who has provided the complete or partial financial support for the research work

Authors are advised to declared the conflict of interest Yes/ No

**Conflict of Interest/
Plagiarism Report
Plagiarism**

To maintain the standard IJTRIM is requesting the authors to go for content verification of the paper through any free plagiarism checker before submitting the manuscript for publication.

Reviewer Suggestion

Authors may suggest relevant subject matter experts as reviewers by providing their names, e-mail id and contact info of at least three suitable reviewers.

Processing charge

- Upon acceptance of the manuscript authors are required to pay Rs.1500 for Indian Authors and 50U\$ for foreign authors towards article processing fee.
- Corresponding/ submitting author assumes full responsibility for the payment of article processing fee. Charges once paid will be refunded back under any circumstance.

Manuscript Submission

IJTRIM welcomes online submission of manuscript as an email attachment to the following email ids

editor.ijtrim@gmail.com , editor@ijtrim.com, submit@ijtrim.com
